SUMMARY

Detail oriented Frontend Developer with experience building responsive, full stack web applications using HTML5, CSS3, JavaScript, React.js, and Laravel. Skilled in designing role-based admin systems, RESTful integrations, and clean UI/UX interfaces. Quick learner with strong problem-solving skills, collaborative mindset, and a proven ability to deliver quality projects on time.

SKILLS

Languages & Frameworks HTML5, CSS3, JavaScript (ES6+), PHP, React.js, Next.js, Laravel, jQuery

Styling & Tools Tailwind CSS, Bootstrap, MySQL, Git, GitHub, VS Code, Responsive Web Design

EXPERIENCE

CodeSyncs

Associate Software Engineer Intern • Remote

Lahore (Remote)

- Developed responsive web pages using HTML5, CSS3, Tailwind CSS, and Bootstrap with a mobile first approach
- Built dynamic, interactive UI components using JavaScript and jQuery, collaborated with team members in an Agile workflow
- Refactored legacy code to improve readability and performance, participated in code reviews and sprint planning

PROJECTS

Blogging Website [Link](#)

- Built a full stack blogging platform with separate admin and user dashboards, role-based access control (RBAC), and secure authentication.
- Admin panel includes post management, user control, category management, and content moderation; users can browse, comment, and manage profiles

Smart Notes App [Link](#)

- Developed a full stack note taking app using Laravel MVC with CRUD operations, MySQL via Eloquent ORM, and Laravel Breeze authentication
- Designed a clean, responsive UI with Tailwind CSS and real-time interactivity using JavaScript

Mobile Bio Lab [Link](#)

- Built a responsive lab data management app with sample tracking, data visualization dashboards, and secure user authentication

WareHouse Management System [Link](#)

- Developed a full-stack **Warehouse Management System (WMS)** using Laravel, MySQL, JavaScript, and Tailwind CSS with inventory, sales, purchase, and expense management features.
- Implemented **real-time stock tracking**, scanning, multi-warehouse management, and automated profit/loss reporting.
- Built responsive dashboards and dynamic CRUD modules for products, suppliers, customers, categories, brands, and units.

Weather App [Link](#)

- Developed a responsive Weather Forecast Web App using React.js, Vite, and Tailwind CSS with real time weather, hourly, and 7 day forecast features.
- Implemented API integration, error handling, loading states, and responsive UI components to deliver a smooth and modern user experience.

EDUCATION

BS in Computer Science, Virtual University of Pakistan (GPA: 3.88)

Mar '24 — Feb '26

Associate Degree in Computer Science, Riphah International College (GPA: 3.87)

Nov '21 — Aug '23
